**Protect Taxpayer Dollars By Eliminating Automatic Funding in ObamaCare**

March 30, 2011

Dear Colleague:

When Speaker Pelosi said of ObamaCare, "We have to pass the bill so that you can find out what is in it," she wasn't kidding. After reading this 2700 page monstrosity, the American public realized that in addition to higher premiums, government controlled health care, and increased bureaucratic regulations; this legislation contains automatic spending of \$105.5 billion through FY2019. This means that without any Congressional hearings, language in appropriation bills, or oversight, the Executive Branch was granted unprecedented spending authority from a Democrat passed authorization bill.

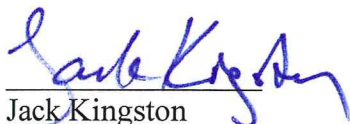

For this reason, we will be introducing legislation that:

- Removes the \$105.5 billion in automatic funding that was buried in ObamaCare;
- Returns to Congress its power to review this funding annually and exercise full oversight using the power of the purse as defined by Article I Section 7 of the U.S. Constitution so that one Congress does not bind future Congresses with post dated checks;
- Rescinds all unobligated balances that have already been appropriated in FY2010 and FY2011.

We were sent to Washington to make tough decisions. The American public expects us to come together and pass legislation that stops automatic funding in ObamaCare once and for all.

To become a cosponsor of this legislation, please contact Congresswoman Bachmann's Legislative Director Robert Boland at x56331 or by email at [Robert.Boland@mail.house.gov](mailto:Robert.Boland@mail.house.gov).
